Technical University of Cluj-Napoca,  
Faculty of Materials Science and Engineering  
Chair of Environment Engineering  
Project director Prof.Dr.Eng. Vasile SOPORAN  
Duration of project 2010 – 2013

General information <http://www.cpadd.ro>

**General objective** is to support the initiation of new businesses in the field of durable development through the creation of the *Center for the Development and Promotion of Entrepreneurship in the Domain of durable Development*, within the Technical University Cluj-Napoca.

**The objective of the project** will be accomplished by organization of specific activities:

- Professional formation program targeted on the entrepreneurial and managerial competences;
- Consulting for the development of the initial business;
- Creation of some model spin-offs in rural and urban environment.

The proposed project has in view the promotion of the concept of “entrepreneurial university”, thus being integrated in the newest trends of development of university pedagogy. Positive effects will be generated by setting the business environment in Romania at the current level in the European Union.

### **Targeted activity domains:**

1. Alternative energy resources;
2. Development of ecological constructions based on the “green house” principles.
